

## EUROPEAN COMMUNITY REGULATION 1907/2006 (REACH)

The REACH Regulation nr. 1907/2006 of the European Community, concerning the registration, the evaluation and the authorization of the chemical substances, has come into force since 01/06/2007.

The instructions of the regulation provides that who produces or imports from Extra EEC Countries a substance as such or contained in a preparation or in an article in a quantity equal or higher than 10 tons/year, is obliged to register it at the responsible European Agency (ECHA) with timing and modalities defined by the regulation itself, depending on both the quantity and the risk factors.

The preparations needn't be registered but the substances they contain must be registered in accordance with the regulation instructions.

**ITALTRONIC SRL** is therefore not obliged to register its products.

**ITALTRONIC SRL** takes on also to assure itself and its customers that the substances contained in its own products will be pre-registered and/or registered.

To this purpose there is at present an exchange of information between ITALTRONIC SRL and its suppliers in order to assure that the raw materials requiring that, will be in conformity with the regulation in force.
